

SJCC Digital Competition Changes

The club now has a new upload program, and this has resulted in several changes in how pictures are entered. When you go to the Digital Upload page in the club's web site you will be directed to the PhotoContest Pro page to log in (upper right hand corner of the page) using your Email address, the password you used last year, and select South Jersey Camera Club from the Organizations drop down menu. After logging in, select "Upload Pictures (Old)" from the top of the page. At the bottom of the next page click on "HERE" under "Uploading Directly from the Web" and you will go to a page that has the available competitions posted along with the competitions date and the closing date. Select the one that applies to you, A or B depending on the category you are in and the date of the competitions.

On this page just follow the instructions, providing a title for your picture and then browse for your picture and then upload it. Your pictures will be listed after you upload them.

There are no longer rules applying to the file name or file size. Be careful which group you enter (you can change it on-line if you make a mistake.).

Please note that the system is fully automated through software and we will not be able to help you with problems or enter pictures after a contest's closing date.

The following apply to the pictures you upload:

Resolution: The maximum dimension shall be no larger than 1050 pixels in either direction

Note: For best quality, either the horizontal or the vertical resolution (depending on the aspect ratio) must be at the maximum.

File Size: No restriction

File Format: jpg

Color Space: sRGB

Enter early

We can't help you after the closing date!
